

The Rego PPM Base Kit

Update Project and Portfolio Management with the most feature-rich kit available.

The base kits in regoFoundation's PPMExpress are built on core best practices we've refined for over a decade. Our PPM engagements span 400+ customers and include thousands of development requests. Rego Base Kits are the fastest, most cost-effective way to implement the widest array of Portfolio Management solutions. Implementing these items collectively has saved organizations thousands of dollars.

The Rego ServiceNow PPM Base Kit is user-ready at install. Just plug and play to start using Rego-developed configurations for Idea, Demand, Cost and Team Member Views, Project Management, Data Compliance, Reporting, and Time Tracking & System Processing. Designed by the industry's most experienced PPM services provider, the Rego PPM Base Kit provides maximum value with minimal effort.

The PPM Base Kit will give you a robust PPM environment with the most commonly requested updates, so you can employ best-practices at a fraction of the cost.

What's included:

Idea

Idea configuration for improved data capture and usage. Data from Idea flows to the Demand record on approval. Ideas can be created from Incidents.

Demand

Demand aligned to Idea. Ability to request sponsor approval. Deferred categorization. Issues and decision tracking. Cost reporting and team member views. Data points carried forward to associated project.

Project/Program

Project and Program configuration to update standard fields with additions like project-on-hold, baseline capture, and go live tracking based on key milestone designations.

Cost and Team Views

Configuration to pull cost plan data into detailed and summary views. Align project actuals to cost plans with line-item variances. See aggregated project totals by resource and group.

Reporting Dashboards

Dashboard enhancements for PMO, Portfolio, and Program and Project (including Pipeline Views, Active Tracking, and Risk Tracking).

Time Tracking & System Processing

Configure timecards to include project-level filtering. Auto-approval of timecard jobs, with a grace period. Batch processing of financial jobs for increased control. Exception-reporting for expenses that are not aligned to cost plans.

Rego's PPM Base Kit is designed to grow with you!

Your base kit capability can be tailored to your organization's maturity and go live as needed. All Rego configurations are in alignment with the ServiceNow ITBM upgrade path.
